

Bin-e

All You Need To Manage Your Waste!

**SMART WASTE
BIN**

SMART WASTE BIN

EFFICIENT WASTE MANAGEMENT IN YOUR BUILDING

Bin-e is an AI-based system that provides precise automatic sorting of garbage and data-processing on an IoT-Platform to make waste management more efficient.

HOW DOES IT WORK?

BIN-E OPTIMIZES WASTE MANAGEMENT IN YOUR AREA: IT ENSURES PRECISELY SORTED RAW MATERIAL THROUGH AUTOMATIC RECOGNITION AND SEGREGATION, AND REDUCES THE FREQUENCY OF EMPTYING THE BINS BY COMPRESSING PAPER AND PLASTIC.

Automatic notifications when one of the containers is full allow for more effective time management of employees.

TECHNICAL SPECIFICATIONS

Dimensions: 120 cm x 120 cm x 60 cm

Capacity: 4 x 60 L

Connection: Wi-Fi and modem GSM

Electric power supply: (AC) 230 V

Touchscreen: 10 inches

Standard fractions: glass, plastic, paper and metal. Fractions can be customized with numerous fractions to choose from, e.g. rest waste, plastic bottles or organic waste.

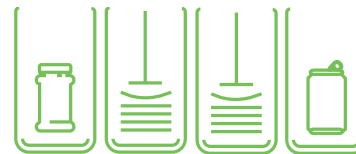

THROWING

AI-BASED WASTE RECOGNITION

AUTOMATIC SORTING

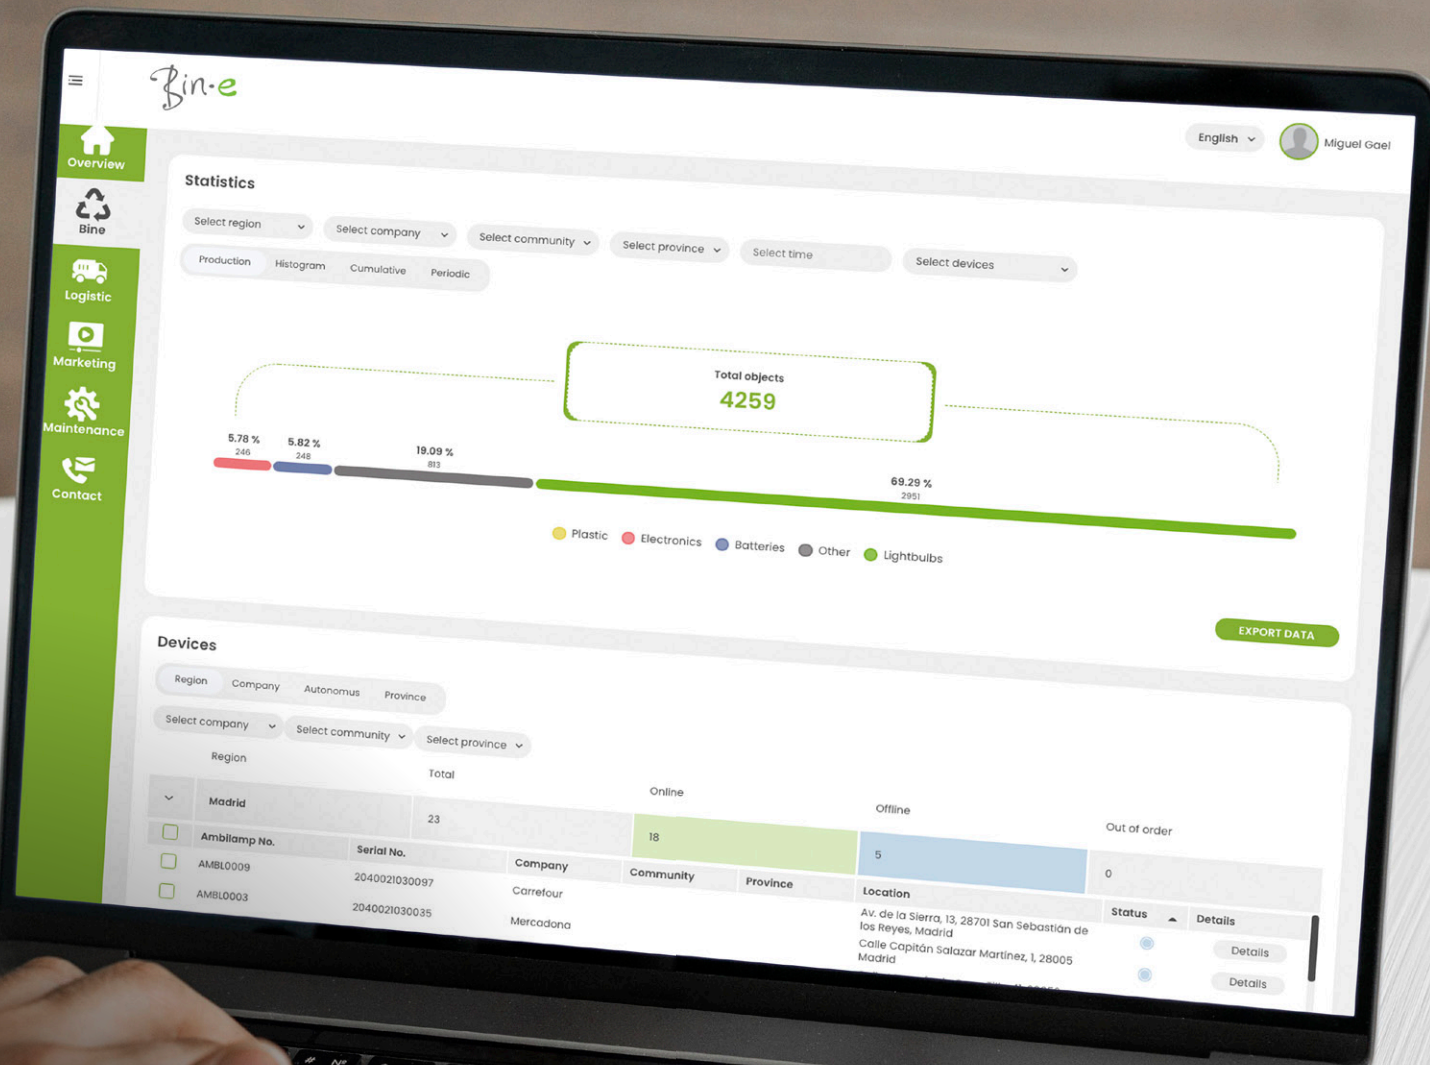

PLASTIC AND PAPER COMPRESSION

FILL LEVEL CONTROL

DATA PROCESSING IN THE CLOUD

EASY MANAGEMENT WITH THE APP

THE WEB APPLICATION INFORMS THE USER ABOUT THE FILL LEVEL OF EACH FRACTION AND THE DEVICE STATUS IN REAL-TIME.

FOR WHOM BIN-E?

**BIN-E IS THE PERFECT TOOL FOR
OPTIMIZING WASTE MANAGEMENT
IN ALL KINDS OF PUBLIC PLACES:
OFFICES, AIRPORTS, PETROL
STATIONS, SHOPPING MALLS,
RAILWAY STATIONS AND MANY
MORE!**

THINK ECOLOGICAL!

FACILITY MANAGERS WHO HAVE IMPLEMENTED BIN-E ENJOY THE FOLLOWING BENEFITS:

- frequency of bin emptying reduced by half;
- 80% lower waste collection costs;
- better time management and increased employee productivity;
- waste management costs reduced by 70%;
- an innovative solution improving the quality of the building;
- compliance with recycling regulations;
- safety related to the lack of access of unauthorized people to the waste bins.

THINK ECOLOGICAL!

**BIN-E HELPS COMPANIES AND
COMMERCIAL SPACE TENANTS BY
PROVIDING:**

- easy and quick sorting of waste;
- an important part of the company's CSR strategy;
- an element of an environmentally friendly space;
- building the image of a precursor in the field of green technologies.

THINK ECOLOGICAL!

**BIN-E SIMPLIFIES THE
RECYCLING PROCESS
AND BRINGS VALUABLE
BENEFITS FOR THE
ENVIRONMENT:**

- waste sorted with a precision of 90% - high-quality raw material that can be immediately recycled;
- lower CO2 emissions for waste transport thanks to the reduced volume of garbage and optimized collection routes;
- less waste going to landfills.

SUSTAINABLE BUSINESS

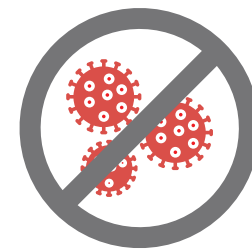

SUSTAINABILITY IS MEASURED BY YOUR IMPACT ON THE ENVIRONMENT AND ON SOCIETY. BIN-E COMBINES BOTH ASPECTS BY SIMPLIFYING THE RECYCLING PROCESS BUT ALSO BY INSPIRING PEOPLE TO RE-THINK WHAT HAPPENS WITH THEIR WASTE AND MOTIVATING THEM TO MAKE A POSITIVE CHANGE.

A vibrant, modern coworking space filled with people. In the foreground, a woman with long red hair stands next to a large white recycling bin labeled 'Bin-e SMART WASTE BIN'. The bin has three compartments for glass, plastic, and paper, each with a corresponding icon. A man in a grey shirt stands with his back to the camera, looking at the bin. In the background, several people are working at long wooden tables. A woman with long brown hair is sitting at a table, looking at a laptop. A man with glasses is sitting next to her, also working. Another man is standing and talking to a woman. A woman with dark hair is sitting on a large, dark grey beanbag chair, reading a magazine titled 'Business'. A large potted plant with broad green leaves is on the right side of the image. A chalkboard in the background has the word 'COWORKING' written on it, along with other words like 'THINK', 'MOTIVATION', 'SOCIAL', 'flexible', 'creative', and 'freedom'. The overall atmosphere is bright, modern, and collaborative.
