

Hooklift container (Roll-on-roll-off) 40 cbm (high height range)

Smoothline type, for solid waste, recyclables and light construction materials

Fully engineered roll-on-roll-off-containers, German design, DIN compliant with all related safety features. Made on purpose as light weight container from extra high grade steel, to accommodate higher pay load. Bended and rounded side wall and bottom steel sheets, for optimum waste discharge and highest stabiity. Top-lock device at rear doors. Work Safety door locking device at the side. Heavy duty rollers made from special sturdy polyamid or steel. Net hooks for tarpaulin covers included. Optional ladder at the front. Available in all sizes and in various other designs, with and without cover, for specific applications, too.

Pictures and drawings: The picture on display is for illustrative purposes only; minor model changes reserved.
