

Skip for Chain loader trucks, classic type Covered top/steel lids, 7 cbm

The ideal skip for hazardous waste, general waste and recyclables

Fully engineered symmetric skip container, suitable for lifting by all types of chain loader trucks/skip loaders. Reinforced in all relevant areas, welded entirely from inside and outside for ultimate strength and durability. The skip comes with a triple tipping device on the bottom of front and back side, and with heavy duty tipping.

Pictures and drawings: The picture on display is for illustrative purposes only; minor model changes reserved.
